

**SYSTEMS:
6. THE PROJECT
PROGRESS CHART**

*THE NUMBER OF PROJECTS
YOU'RE RUNNING AT THE
SAME TIME CAN FEEL
OVERWHELMING. DON'T
WORRY, THIS IS NORMAL!*

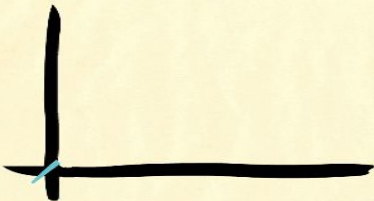

*PROGRESS IN ANY PROJECT
IS NEVER LINEAR.*

*THERE ARE ALWAYS UPS AND
DOWNS, AND OFTEN LOOKS LIKE THIS
GRAPH!*

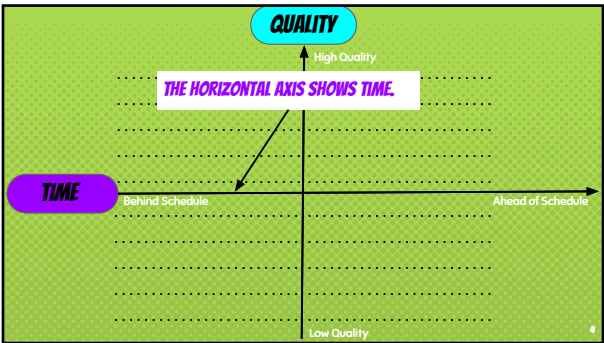

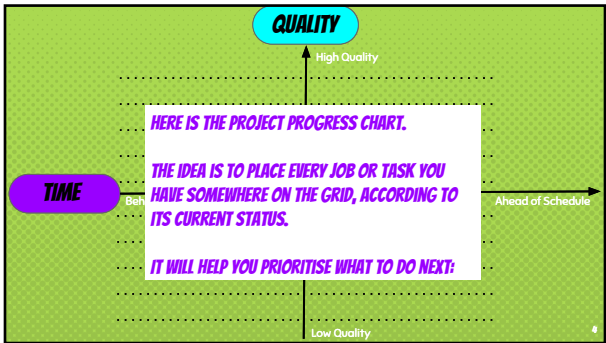

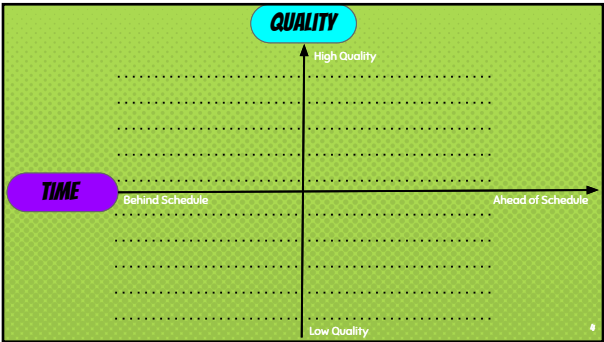

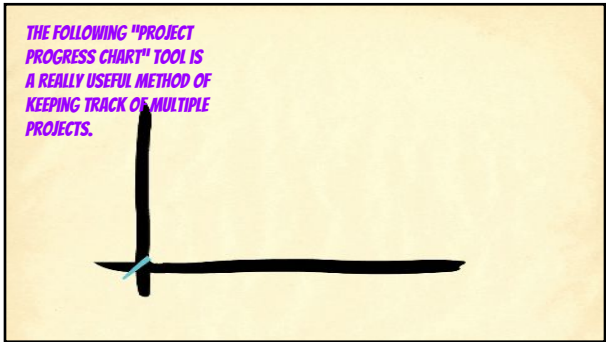

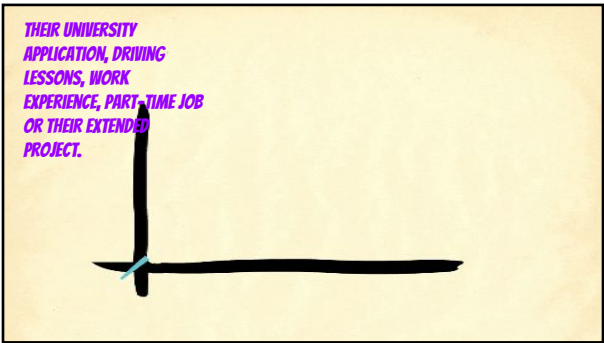

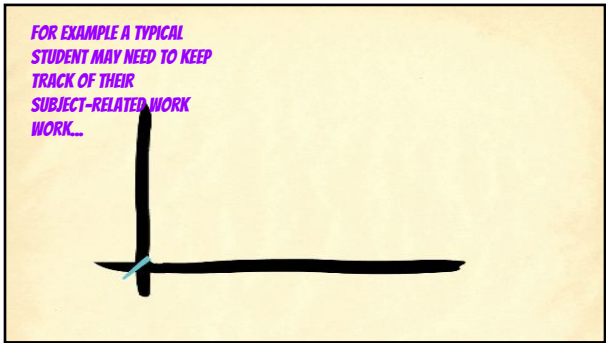

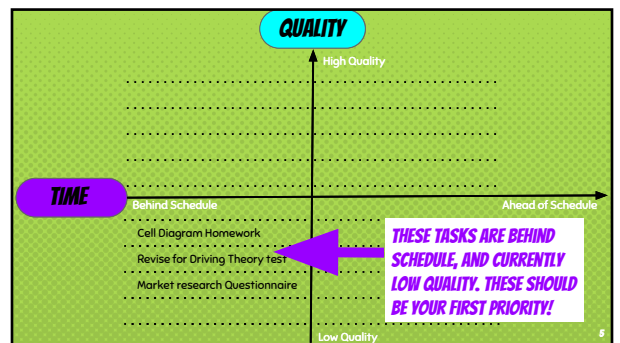

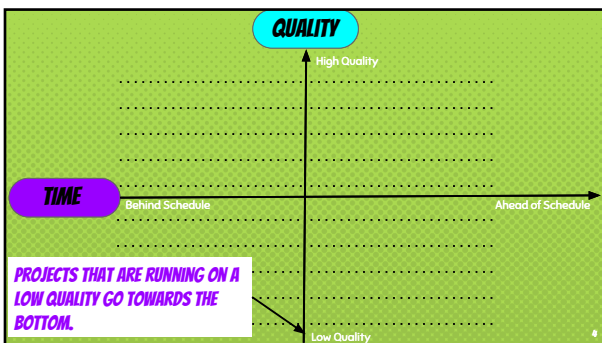

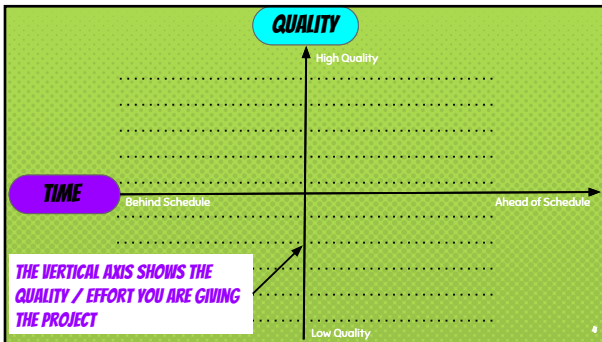

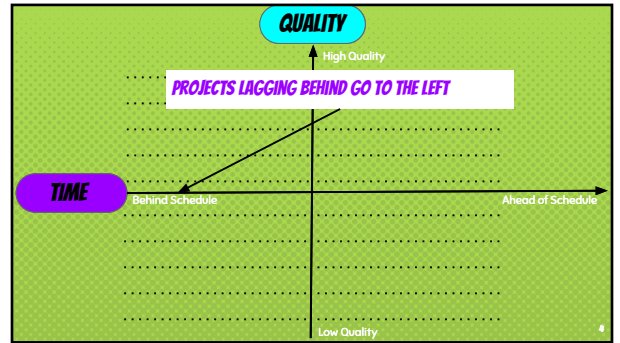

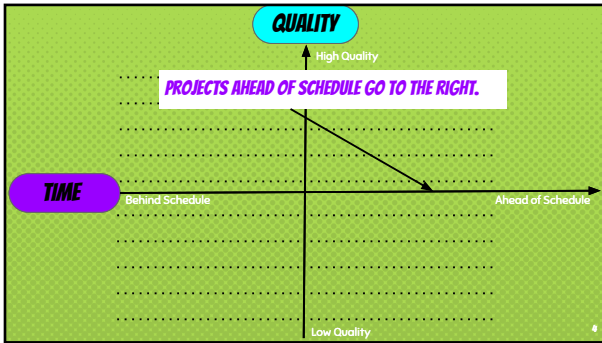

*HOWEVER AS LONG AS PROGRESS
IS FINALLY MADE WE HAVE
SUCCEEDED...*

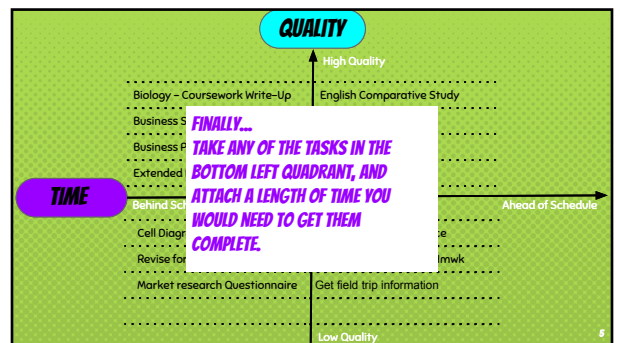

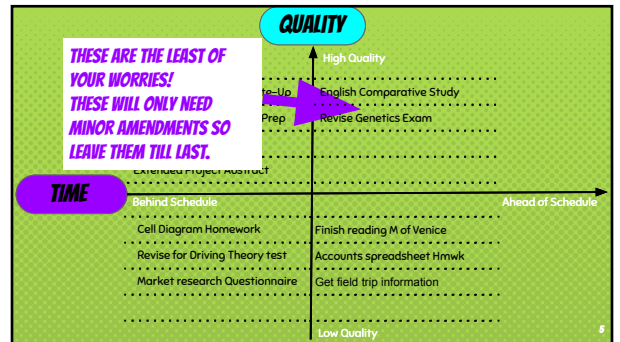

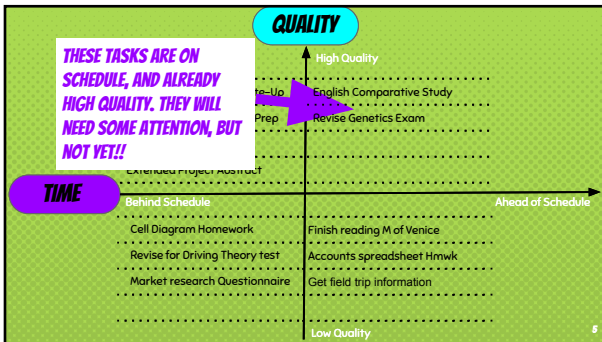

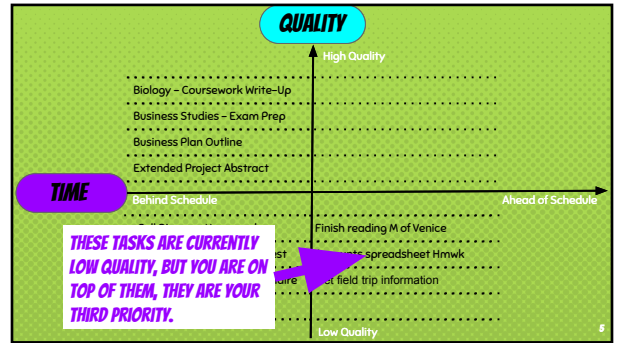

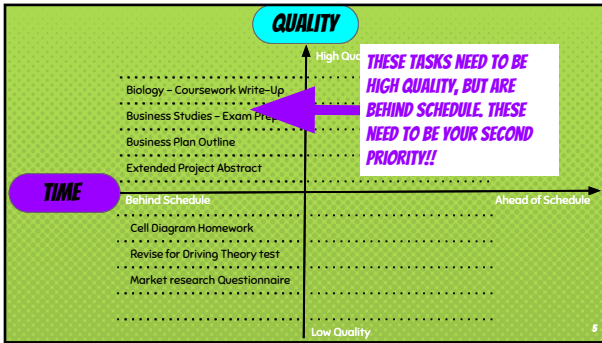

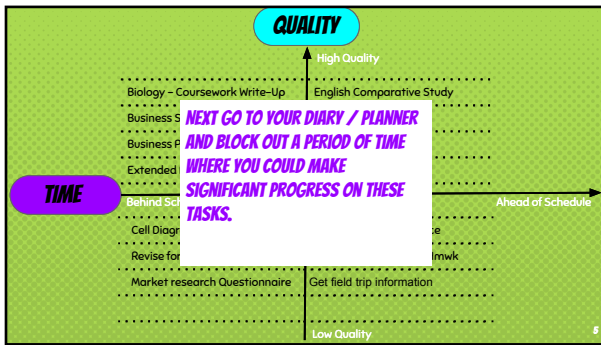

*KEEPING TRACK OF THE
PROGRESS OF MULTIPLE
PROJECTS IS DIFFICULT...*

FINAL THOUGHTS....

1. Now try creating your own Project Progress Chart.
2. Don't spend too long thinking about it; just write down everything you need to complete...
3. ...placing them in one of the 4 quadrants.
4. Once you've done this, commit to clearing the bottom left quadrant within a week, in your study lessons.
